To the Chairman and Members of the

Vaynor and Penderyn Rural

District Council.

Mr. Chairman, and Gentlemen,

I have the honour, once again, to present the Annual Report on the Health and Sanitary Conditions, and the Vital Statistics relating to the Rural District for 1958. The Report is submitted in accordance with the Circular issued by the Ministry of Health.

I wish to tender my thanks to the Members of the Council for their helpful consideration and co-operation in all matters affecting Public Health; and also the Officers of the Council for their help in all matters appertaining to the duties of the Health Department.

The Council continued with its post-war building programme. The number of post-war houses erected in the area to the end of 1958 is 673; of these 33 were erected during the year. The number under construction at the end of 1958 being 6.

The factories and coal-mines of the adjoining County of Glamorgan absorb the majority of our work-people, but a number are employed in factories or work-places within the boundaries of this Rural District. The work-people in the more agricultural part of the District are mainly employed in farming, forestry or quarrying.

The health of the District during the year, has, on the whole, been good. No outbreaks of food poisoning have been notified and there has also been an absence of any serious outbreaks of infectious diseases. The majority of deaths during the year were again in the higher age groups.

The incidence of Pulmonary Tuberculosis has again been low and infectious cases have promptly been isolated by the Chest Physicians of the Welsh Regional Hospital Board, chiefly at the Mardy Isolation Hospital and and Cimla Sanatorium.

I am,

Yours faithfully,

J. TATE,

Medical Officer of Health.

TOPOGRAPHY.

The Rural District comprises the three parishes of Vaynor, Penderyn and Ystradfellte, in the County of Brecon. The Parish of Ystradfellte, which had been administered by the Neath Rural District Council, was added to this Rural Authority by a Review Order of April 1st., 1934.

The three Parishes comprised in this Rural District are of considerable extent. The total area being 39,271 acres, or over 61 square miles, with an average length of 8 miles and a width of about 12 miles. They are situated on the Southern Boundary of the County of Brecon, and adjoin the districts of Neath, Aberdare and Merthyr Tydfil in the County of Glamorgan. They form four valleys in the foothills of the South Escarpment of the Brecknockshire Beacons with high table-lands between.

The PARISH OF VAYNOR comprises two valleys running northwards towards two spurs of the Brecknock Beacons, and the PARISH OF PENDERYN consists of high table-land adjoining and emerging towards the same mountainous area. These Rural Parishes are only separated by the narrow streams already mentioned, from the County of Glamorgan, and the important populous Urban Districts of Merthyr Tydfil and Aberdare on the South. The PARISH OF YSTRADFELLTE presents similar physical features extending from the rugged Van Mountains to the north, covering a rough hilly Table-land intersected by two very narrow valleys converging towards an apex at Pontneathvaughan.

ELEVATION.

The district, as a whole, is at a great elevation above sea level, varying from 263 feet to no less than 2,250 feet; it will be realised that the nearly 40,000 acres contained in the area includes a considerable amount of sparsely inhabited mountain land. In the Parish of Vaynor, the levels extend from 645 feet near Cefn Bridge to 1,612 feet at Twyn-y-Croes on the mountain above Cwm Glais. Penderyn Parish presents levels varying from 588 feet at Cynon Bridge, Hirwaun, to 1,376 feet at the top of Twyn, Cadlan, while the Parish of Ystradfellte contains such extreme variations of level as 263 feet at the Bridge at Pontneathvaughan, and 2,250 feet near the top of Fan Fawr, which is partly in the Parish.

CLIMATE.

The proximity of the well-known range of mountains known as the Brecknock Beacons, accounts for the rather heavy rainfall that prevails. Some of the largest reservoirs in Wales are partly in the Rural District.

V I T A L S T A T I S T I C S .

BIRTHS. The Births registered in the District in 1958 numbered 114 (male 59 and female 55). The Annual Birth Rate for 1958 was 18.54 per thousand of the population, compared with 16.53 in 1957 and 17.73 in 1956. The Annual Birth Rate for England and Wales for 1958 was 16.4 compared with 16.1 for 1957 and 15.7 for 1956.

STILL BIRTHS. Two male and two female still births were registered in the area during the year. The rate per thousand of the population being 0.65 compared with 0.335 for 1957 and 0.167 for 1956. The rate for England and Wales per thousand total live and still births for 1958 was 21.6 compared with a rate of 33.9 per thousand live and still births for this area during the year.

DEATHS. There were 63 deaths assigned to this area during 1958; of these 34 were male and 29 were female. This figure takes into account 16 inward transferable and two outward transferable deaths. The death rate for 1958 was 10.24 per thousand of the population, compared with 11.4 for 1957 and 12.04 for 1956. The death rate for England and Wales for 1958 was 11.7 per thousand of the population, compared with 11.5 for 1957 and 11.7 for 1956.

DEATHS OF INFANTS UNDER ONE YEAR OF AGE. One male infant under the age of one year died in the district during 1958. The cause of death was as follows:-

Under one week. (i) 1(a) Atelectosis.

The number of deaths recorded under this heading is four less than last year and the infant mortality rate has decreased from 18.86 in 1956 and 50.00 in 1957 to 8.77 per thousand live births this year. The rate for England and Wales during 1958 was 22.5 per thousand live births compared with 23.1 during 1957.

DEATHS UNDER ONE YEAR FROM DIARRHOEA. No deaths were recorded under this heading during the year.

HEALTH SERVICES FOR THE AREA.

AMBULANCE FACILITIES. The Brecon County Council administer the ambulance services of the area under the National Health Act, 1946. The Health Department of the County Council have made arrangements with neighbouring authorities to provide ambulance facilities for our area as follows :-

Parish of Vaynor - County Borough of Merthyr Tydfil.
Hirwaun, Penderyn,
Ystradfellte and - Glamorgan County Council.
Pontneathvaughan.

Infectious disease cases in our area utilise the services of the Mardy Isolation Hospital, Merthyr Tydfil and the Cimla Hospital, Neath.

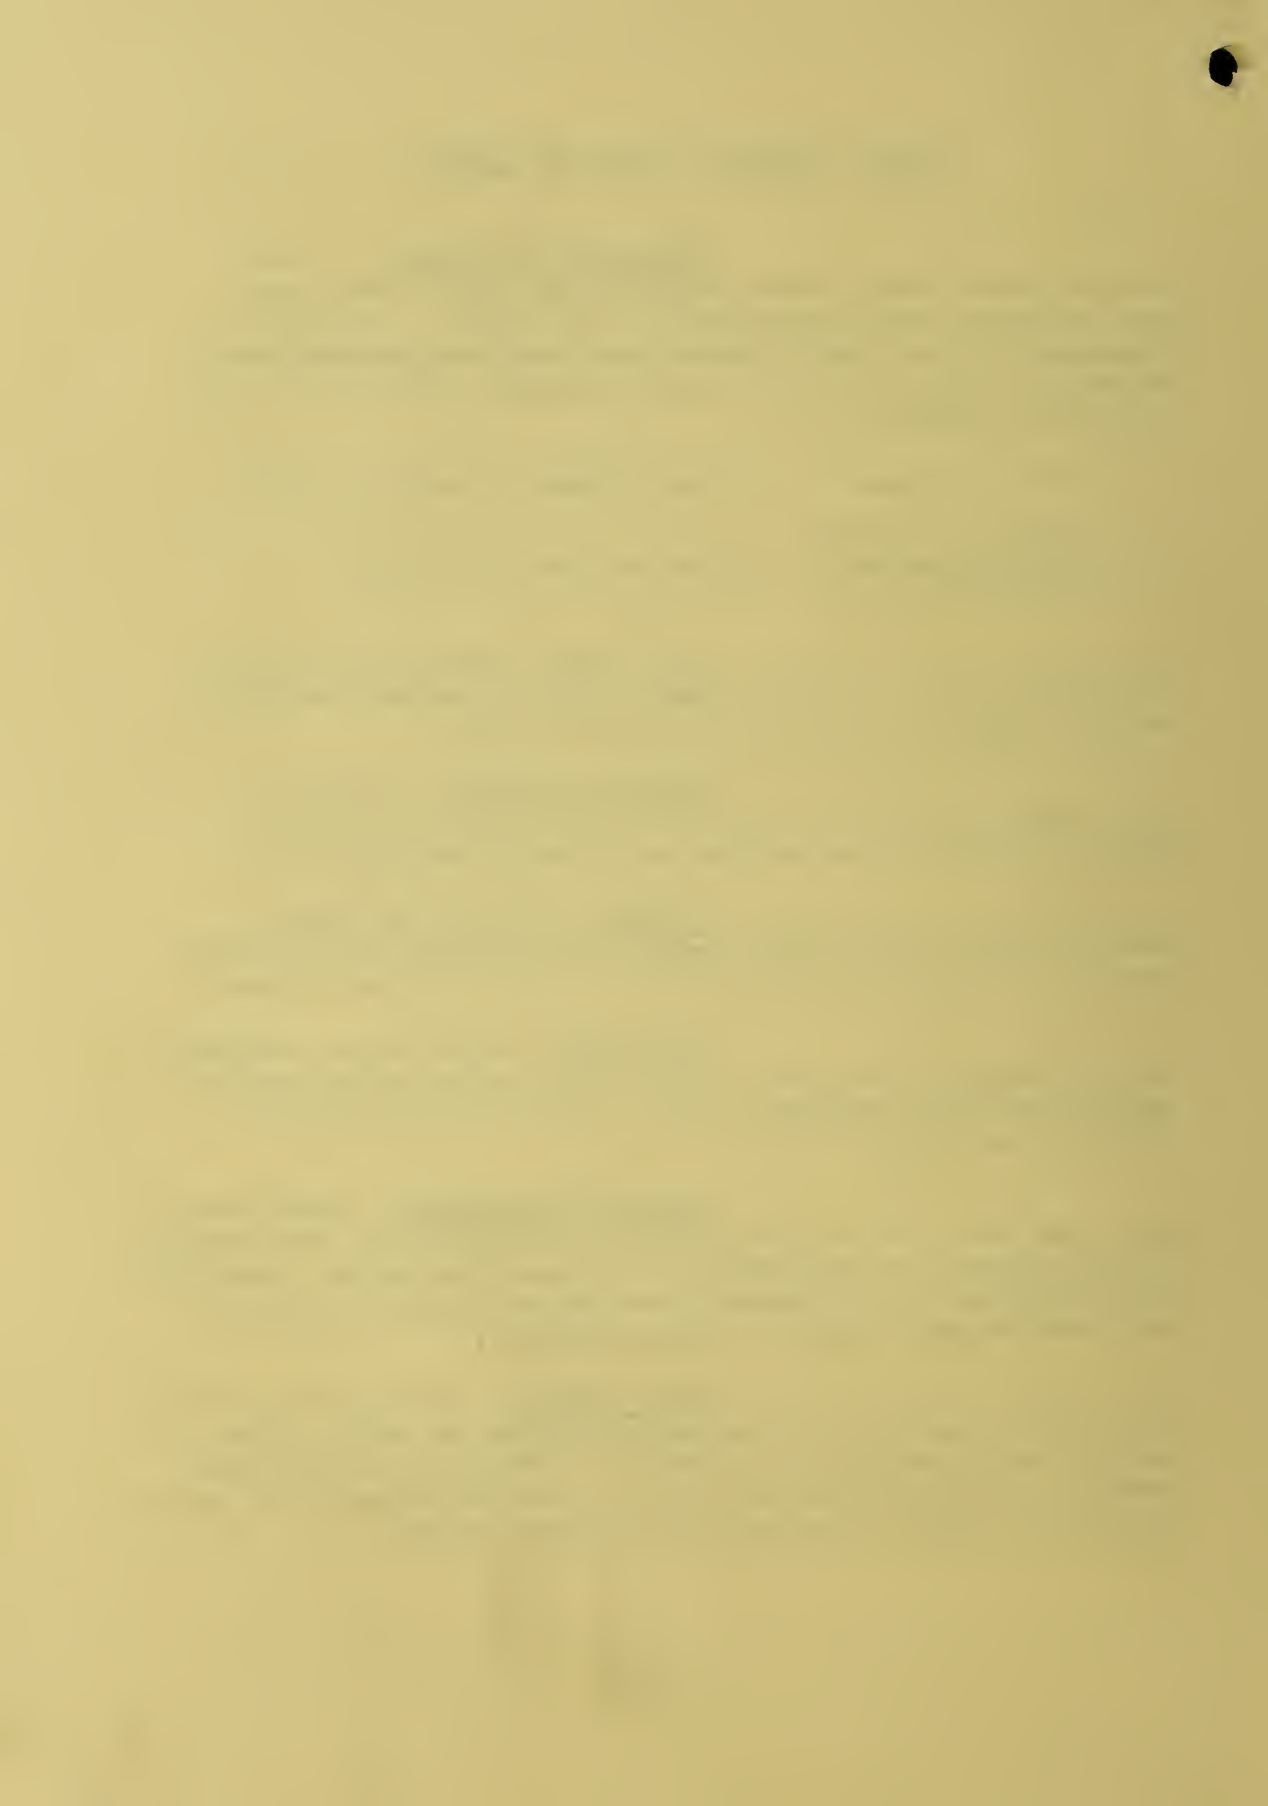

NURSING AT HOME. This work, which was undertaken by Voluntary Nursing Associations until 5th July, 1948, is now carried out by the County Council.

CLINICS. Clinics are still administered by the County Council, and clinics for expectant mothers and Infant Welfare are held at Cefn Coed and Hirwaun.

HOSPITALS. There are no hospitals in the Council's area, but we are fortunate in having hospital facilities in the adjoining urban areas of Merthyr Tydfil, Aberdare and Neath.

LABORATORY SERVICES. Arrangements have been made for the services of the Public Health Laboratories of the Institute of Preventative Medicine, The Parade, Cardiff, to be utilised for all chemical and bacteriological analyses and examinations required by this Authority.

WATER SUPPLY. The districe, which has several supplies of piped water, has on the whole, been satisfactorily supplied with water. Cefn Coed, in the Vaynor Parish, is supplied from the mains of the Taf Fechan Water Supply Board, as is the geater part of the Vaynor Parish.

In the Parish of Penderyn, Hirwaun is supplied by the mains of the Aberdare Urban District Council. At Penderyn, the water is pumped from the Cadlan and Ogof Fawr regions. This supply is chlorinated at the Cadlan Pump-house by means of a semi-automatic apparatus installed in 1944.

During the year 1951, an alternative supply from the Llygad Cynon Borehole was connected up to the existing mains at Penderyn, thus ensuring a clean and wholesome supply of water during periods of drought.

Pontneathvaughan, in the Parish of Ystradfellte, is supplied by the mains of the Neath Rural District Council. Unfortunately, However, the upper portion of the Parish, which includes the small hamlet of Ystradfellte, a school, and some 45 scattered farms, has no main piped water supply. A scheme has been prepared to provide subsidiary mains connected to the existing Neath Rural District Council's mains, which will provide a suitable and satisfactory supply to the farms and houses in the Ystradfellte area. An extension of the Neath mains will also provide a supply to the Colbren district of our area.

It is essential that a piped supply be brought into these areas to ensure that a wholesome supply of water be available to milk producing farms, as well as to the farm houses and cottages.

During the year samples of water were taken for bacteriological and chemical examination from Council mains and also from farms.

DRAINAGE AND SEWAGE DISPOSAL

WORKS. The Council has provided efficient drainage and sewage disposal works for the whole area with the exception of the small hamlet of Ystradfellte. The disposal of sewage from the Hirwaun district is undertaken by the Aberdare U.D.C. under a joint scheme. Five other separate systems of sewage disposal are operated by this Council throughout the area.

REFUSE COLLECTION. Refuse is collected in the Cefn Coed, Hirwaun, Trefechan, Penderyn and Pontneathvaughan districts three times a week; twice a week at Pontsticill; and once a week at Ystradfellte.

REFUSE DISPOSAL.

Refuse collected in the Vaynor Parish is mainly deposited at Godre'r Coed, Cefn Coed, although some is deposited at Pontsticill. Refuse from the Penderyn Parish is deposited at Trebanog, Penderyn, whilst collections of refuse from the Ystradfellte Parish continue to be tipped at Dinas Bank, Pontneathvaughan.

Care is taken to ensure that the refuse deposited at these tips does not become a breeding ground for vermin. The tips are regularly visited and baited when necessary.

SLAUGHTER-HOUSES.

There are no slaughter-houses in the Council's area. All meat for human consumption in this area is supplied from slaughter houses in adjoining areas.

FOOD AND DRUGS ACT, 1938.

A close inspection is made of meat and other foods sold in retail establishments throughout the area. Two hundred and twenty visits were made to butcher shops, food retailers, fried fish shops, ice cream premises, cafes and public houses during the year.

Bye-laws under Section 15 of this Act have been adopted and brought into operation by this Council.

Condemnation certificates are issued in respect of foodstuffs condemned in our area, in accordance with the various Food Regulations issued by the Ministries concerned. The following articles of food were condemned during the year, as being unfit for consumption by humans:-

| | | | |
|------------------------|---------|-----------------------|---------|
| Beef | 36½ lb. | Tomatoes..(tinned) .. | 18 lb. |
| Chickens | 27 lb. | Pears .. " | 30¼ lb. |
| Beef Loaf (tinned) .. | 3 lb. | Peas .. " | 4¼ lb. |
| Pork Luncheon " | 4 lb. | Carrots .. " | 6¼ lb. |
| Corned Beef " | 14½ lb. | Cherries.. " | 30½ lb. |
| Cooked Ham. " | 40¼ lb. | Peaches .. " | 7¼ lb. |
| Pineapples (tinned) .. | | 6¼ lb. | |

LICENSED PREMISES. Visits have been paid to all the licensed premises in our area, and it is pleasing to note that improvements continue being made to raise the standard of these premises in every possible manner.

Every house is endeavouring to utilise the provision of proper facilities for cleansing glasses and utensils, and serving refreshments in an hygienic manner.

The sanitary accommodation of these premises has been improved, and the owners of these premises are always willing to co-operate in providing amenities and alterations.

FARMS, DAIRIES AND COWSHEDS. Since the 1st October, 1949, the Ministry of Agriculture, Food and Fisheries, has been responsible for farms, dairies and cowsheds, under the Milk & Dairies Regulations, 1949. The Local Authority, therefore, have no control over the inspection of these premises other than under the Infectious Diseases Regulations and the Tuberculosis Acts. The Local Authority is however, responsible for dealing with the water supply to these farms and, in this connection, the County Agricultural Executive Committee has co-operated in endeavouring to supply a piped water supply to the farms. The Local Authority is now also responsible for the carrying out of the requirements of the Prevention of Damage by Pests Act, 1949, which was formerly carried out by the County Agricultural Executive Committee.

MILK SAMPLING. The milk produced in the area is mainly collected and transported to milk factories where it is pasteurised. This milk is tested and examined on arrival at the factories by the laboratories attached.

During the year samples of milk were taken from retailers and producers for bacteriological examination and keeping qualities.

PREVENTION OF DAMAGE BY PESTS ACT, 1949. Under this Act, the Local Authority is responsible for the survey of the whole area in relation to infestation by rats and mice.

The work of surveying and inspecting the district has been carried out, under the supervision and direction of the Public Health Inspector. A full-time Rodent Operator is employed in the Public Health Department, and he is, at certain times of the year, assisted by temporary employees.

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1861. It is a very important document, as it contains the President's views on the state of the Union and the course of action which he proposes to pursue.

2. The second part of the document is a report from the Secretary of the Treasury, dated January 1, 1861. It contains a detailed account of the financial condition of the United States at that time, and of the measures which have been taken to meet the public debt.

3. The third part of the document is a report from the Secretary of the Interior, dated January 1, 1861. It contains a detailed account of the land and mineral resources of the United States, and of the measures which have been taken to develop these resources.

4. The fourth part of the document is a report from the Secretary of the Navy, dated January 1, 1861. It contains a detailed account of the naval forces of the United States, and of the measures which have been taken to strengthen the navy.

5. The fifth part of the document is a report from the Secretary of the War, dated January 1, 1861. It contains a detailed account of the military forces of the United States, and of the measures which have been taken to strengthen the army.

6. The sixth part of the document is a report from the Secretary of the State, dated January 1, 1861. It contains a detailed account of the foreign relations of the United States, and of the measures which have been taken to conduct these relations.

7. The seventh part of the document is a report from the Secretary of the War, dated January 1, 1861. It contains a detailed account of the military forces of the United States, and of the measures which have been taken to strengthen the army.

8. The eighth part of the document is a report from the Secretary of the State, dated January 1, 1861. It contains a detailed account of the foreign relations of the United States, and of the measures which have been taken to conduct these relations.

9. The ninth part of the document is a report from the Secretary of the War, dated January 1, 1861. It contains a detailed account of the military forces of the United States, and of the measures which have been taken to strengthen the army.

The sewer syetms in the Local Authority's area have, in accordance with the provisions made by the Ministry of Agriculature, Fisheries and Food, been treated twice during the year. These maintenance treatments have been carried out in conjunction with surface properties.

This area, being of a rural character, has necessitated a close watch being kept on the infestation of river banks and culverts near villages. The refuse tips in the area have been dealt with at regular intervals and are inspected weekly to prevent any infestation occurring or remaining on these lands. This work, on refuse tips, is also maintained in the region of the Sewage Disposal Works, where no major infestations have been found during the past year.

During the year, special attention has been paid to premises where food is stored or prepared for human consumption. These premises are visited regularly, and it is pleasing to note that few complaints are received, or evidence found, of infestation in such premises. The occupiers of these premises are aware of the damage likely to be caused by rodent infestation and have taken great care to keep their premises in a satisfactory manner.

1. The first part of the report deals with the general situation of the country and the position of the various groups of the population. It is a very interesting and informative study of the social and economic conditions of the country.

2. The second part of the report deals with the political situation of the country. It is a very interesting and informative study of the political conditions of the country. It deals with the various political parties and the position of the government.

3. The third part of the report deals with the economic situation of the country. It is a very interesting and informative study of the economic conditions of the country. It deals with the various economic sectors and the position of the government.
